

# BHOO MITHRA SENA CLUB

The Bhoo Mithra Sena Club continues to thrive as a hub for environmental enthusiasts and advocates for nature conservation. Over the past year, the club has undertaken various activities aimed at fostering a deeper connection with the natural world and promoting sustainability. Addressing environmental issues is a multidisciplinary task and for its objective accomplishment, a strong action on awareness building is essential. For strengthening the environmental commitment of students at college level in the State, Directorate of Environment & Climate Change (DoECC) has launched the 'Bhoo Mithra Sena' programme.

## **World Environment Day- 5<sup>th</sup> June 2023**

One impactful way to commemorate this day is by planting saplings, symbolizing our commitment to environmental sustainability and biodiversity conservation. By planting saplings on World Environment Day, we reaffirm our commitment to protecting the planet and creating a more sustainable future for all. Together, we can make a difference and inspire positive change for generations to come.

## **Zero Plastic Waste Campaign on World Environment Day 2023**

As part of the Campaign the students of Bhoomithra sena Club actively participated in collecting plastic from the outside premisses of the campus, bus stop and nearby areas. As instructed by the College Principal the plastic wastes were sent to proper disposal

### Green Campus Initiatives on 14-09-2023

As part of green campus initiative announced by Guruvayoor Municipality, the students of Bhoomithra sena Club actively involved in cleaning the campus by collecting and sorting the plastic waste in the college premises.

## World Nature Day- Nature Walk on 03-10-2023

Department of Botany in Association with Readers Club and Bhoomithra sena club organised a NATURE WALK in connection with world Nature Day 2023 on 3<sup>rd</sup> October 2023. Mrs Sibi O S, Assistant Professor in Botany accompanied the students through botany garden medicinal garden cactorium, ptererium and college campus. Students from various departments participated in it and they enjoyed the walk. Mrs Sibi introduced and discussed various medicinal plants, their applications, garden plants and their managements.

Bamboo Day celebrates the versatile and sustainable properties of bamboo, highlighting its importance in various aspects of human life and environmental conservation. Organizing a painting competition on Bamboo Day can be a creative and engaging way to raise awareness about the significance of bamboo and promote environmental sustainability. Here's how such an event could be organized by Bhoomithra sena club and department of botany

**Postgraduate Department of Botany and  
Bhoomithra Sena Club  
Little Flower College, Guruvayur**

**INTERDEPARTMENTAL  
PAINTING COMPETITION**

**Theme:  
Sustainable  
Development  
with Bamboo**

**Submit Your Entries  
On or before  
20/09/2023  
At Department of  
Botany**

**For more details,  
contact,  
Mrs Sruthy K G  
Dept. of Botany**

## World Wetland Day 2024

As part of the World Wetlands Day, Department of Botany and Bhoomithra sena club conducted a photography competition. The programme was aimed to raise the awareness about the vital role of wetlands for people and planet. Those students who were interested was requested to send their photographs to the provided email I D on or before February 07<sup>th</sup>. Photographs were evaluated based on their connection to the theme and innovative quality.

**WORLD  
WETLANDS DAY**

**2 FEBRUARY 2024**  
**Photography Competition**  
**Organized by**
